SUMMARY

As a highly motivated and forward-thinking graduate from the IIT Hyderabad, I possess a diverse skill set encompassing technology, project management, and strategic thinking. I am passionate about frontend development and aspire to leverage my technical expertise and innovative problem-solving skills to create engaging, user-friendly interfaces and drive transformative change in dynamic environments.

WORK EXPERIENCE

UI developer intern, Grid Dynamics

Jan 2023 - July 2023

- Collaborated with product managers and UX designers to translate project requirements and business objectives into polished user interfaces.
- Employed Agile planning principles to deliver tailored solutions that met customer requirements, enhancing user satisfaction and engagement.
- Developed application UIs using emerging front-end technologies, ensuring modern and responsive design.

PROJECTS

Makeup Website Design Project

- Designed and implemented a responsive webpage utilizing HTML and CSS, with a design inspired by a prototype from Figma.

Plumber Services Website Development

- Developed a dynamic user interface using React.js, HTML, and CSS, adhering to a responsive design pattern based on a Figma prototype.

Personal Portfolio Website Design

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase my skills, projects, and achievements.

Iris Flower Classification

- Utilized Python and Machine Learning algorithms (Support Vector Machine, Logistic Regression, Decision Tree Classifier) to predict the type of Iris flowers based on provided datasets.
- Implemented comparative analysis to assess algorithm performance
